

THE BRACKETEER

AUTOMOTIVE FIRE EXTINGUISHER BRACKETS

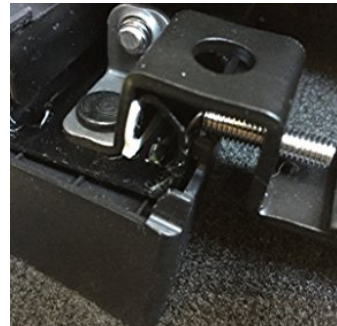

UFEB1317/D Universal Car Fire Extinguisher Bracket

The Bracketeer UFEB1317/D Universal Car Fire Extinguisher Bracket provides a quick and secure solution to mount a fire extinguisher in most modern and classic passenger cars and commercial vehicles.

Compatible with virtually every modern and classic passenger and commercial vehicle including: Audi, BMW, Chevrolet, Chrysler, Dodge, Ferrari, Ford, Genesis, GMC, Holden, Hyundai, Jeep, Mazda, McLaren, Mercedes Benz, Nissan, Oldsmobile, Pontiac, Porsche, Scion, SEAT, Skoda, Subaru, Toyota, Vauxhall, Volvo, Volkswagen and more.

The Bracketeer is not only for automotive, off-road and motorsport enthusiasts. It is now being used by thousands of corporations and government bodies in their fleet vehicles including: School districts, counties and municipalities, airports, mining companies, national parks and wildlife, multi-national companies, trades, transportation, and autonomous vehicle trials.

The Bracketeer Universal Car Fire Extinguisher Bracket is compatible with most compact fire extinguishers with a supplied cradle with hole spacing of 4-1/4", 4-5/8" or 5" (108mm, 117mm or 127mm) center to center.

Clamps to seat rails or bolts onto seat frame points

The Patented Universal Car Fire Extinguisher Bracket simply drops down onto the front or rear of the seat rails on the driver or passenger seat of most modern vehicles and is secured firmly using grub screws. For vehicles with a traditional bolt-on seat frame design, the Clamping Loops are simply inverted and secured through holes onto the factory mounting bolts.

Features & Benefits:

- Mounts to the front or rear of the passenger seat
- Places extinguisher out of the way, but within easy reach
- Simple clamp-on design for contemporary seat rails
- Bolt-on design for traditional seat mount points
- Simple installation without drilling any holes
- Adjustable width to suit a variety of vehicles
- Over 30 different mounting points for extinguisher
- Durable electrophoretic coating
- Supplied with stainless steel bolts & hex keys
- Engineered in the U.S.A.
- One year limited warranty

Included:

- 1 x Adjustable Spacer Bar
- 2 x Clamping Loops
- 2 x Multi Drilled Arms
- 2 x Stainless Steel M6 Grub Screws
- 4 x Stainless Steel M6 Allen Head Bolts
- 4 x Stainless Steel M4 Allen Head Bolts
- 2 x Hex keys (Allen keys)
- 1 x Installation Manual

***Extinguisher not included.**

Legal Disclaimer: The Bracketeer Automotive Universal Fire Extinguisher Bracket should only be installed on the passenger side of vehicle to prevent risk of obstruction to pedals should the extinguisher or bracket dislodge or discharge whilst driving. The Bracketeer provides fitment information based on standard seat rail and seat bracket mount design. Please refer to www.thebracketeer.com/compatibility for more detailed information to ensure fitment before purchasing. The Bracketeer will not be held liable for purchases made for the incorrect application, and a restocking fee may be required. If you have any questions, please contact us before making your purchase. The Bracketeer Automotive Universal Fire Extinguisher Bracket may limit some of the full forward or full rear-ward (when mounted on the back of the seat) lateral movement of the seat, however it is not typically enough to restrict optimal seating position. Please take this into consideration before purchasing. Information correct at the time of publishing. Subject to change.
