UFEB1317/D UNIVERSAL CAR FIRE EXTINGUISHER BRACKET

Each year in the U.S. there are on average 287,000 automobile fires, causing 480 deaths, 1525 injuries and \$1.3 billion in property damages!* Will you be ready if it happens to you?

- Simple clamp-on design for contemporary seat rails
- Bolt-on design for traditional seat mount points
- Mounts to the front or rear of seat
- Adjustable width to suit a variety of vehicles
- Easy installation in under 10 minutes without drilling holes
- Places extinguisher out of the way, but within easy reach
- Over 30 different mounting points for extinguisher
- Supplied with stainless steel bolts and Allen keys
- Constructed from A572 high strength steel
- Easy-to-follow instructions
- One year limited warranty
- Engineered in the U.S.A.

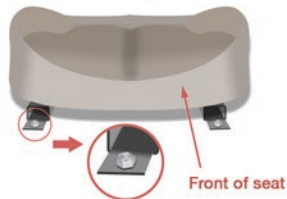

Mounting Option A - On Seat Rails

If the vehicle has a standard slider assembly, the Clamping Loops drop onto the seat rails at the front of the passenger seat. The Bracket may also be mounted behind the seat in sports vehicles or if there is an adjuster handle preventing front mounting.

Mounting Option B - On Frame Bolts

If the vehicle has a bolt-on seat frame, the Clamping Loops can be inverted for mounting onto vehicle seat mount points.
